Exact location to follow

CURE Epilepsy takes **MANHATTAN**

Join us for **CURE Epilepsy Takes Manhattan**,
an evening of music, laughter, and stories
with Miguel Cervantes and friends.

Broadway star Miguel Cervantes is a dedicated epilepsy research advocate and longtime champion of CURE Epilepsy, working tirelessly with his wife Kelly in memory of their daughter Adelaide. Throughout his roles on the stage — most famously as Alexander Hamilton in Chicago and New York City— fellow performers have been drawn to Miguel's dynamic personality and passion for the epilepsy cause.

**Stay tuned - more exciting
performances to be announced!**

ABOUT EPILEPSY

Epilepsy affects more people than multiple sclerosis, muscular dystrophy, Parkinson's, and ALS combined. However, it continues to receive less research money per patient than each of these disorders.

1 IN 26

AMERICANS
will develop epilepsy
in their lifetime

For

50%

of patients diagnosed
with epilepsy, the
cause is unknown.

50 MILLION

people worldwide have epilepsy

ABOUT CURE EPILEPSY

CURE Epilepsy is a parent-founded, research-focused nonprofit committed to finding a cure for epilepsy. Since 1998, it has invested in cutting-edge research and filled critical funding gaps in foundational science to expand understanding of the underlying mechanisms of epilepsy and help discover a cure.

300+ GRANTS

awarded in

19 countries
worldwide

27 YEARS

of groundbreaking
epilepsy research

OVER \$100M

raised to find a cure
